

ALOK KUMAR CHOUDHARY

Full Stack Developer • MERN Stack • React.js • Node.js • Express.js • MongoDB

Jaipur, Rajasthan |  Portfolio |  GitHub |  LinkedIn |  Email |  +91-XXXXXXXXXX

Summary

B.Tech Computer Science student and Full Stack Developer with hands-on experience in **MERN stack development** through internships and personal projects. Skilled in building responsive web applications using **React.js, Node.js, Express.js, and MongoDB**, with practical experience in **RESTful APIs, JWT authentication, CRUD operations, database integration, and cloud deployment**.

Technical Skills

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, JavaScript
Backend: Node.js, Express.js, REST APIs, JWT Authentication, CRUD Operations
Databases: MongoDB, MongoDB Atlas, MySQL, PostgreSQL
Languages: C, C++, Java, JavaScript, SQL
Tools: Git, GitHub, VS Code, Postman, Vercel, Render, Cloudinary, Canva
CS Fundamentals: DSA, OOPs, DBMS, Problem Solving, Responsive Web Design

Projects

1. FoodRush – Full-Stack Food Delivery Platform

[Live Demo](#) | [GitHub](#)

React.js, Vite, Node.js, Express.js, MongoDB Atlas, Razorpay, Cloudinary, Web Speech API, Zustand

- Architected a full-stack food delivery platform with **customer and restaurant-owner roles**, 25+ RESTful API endpoints, JWT authentication, and centralized state management using **Zustand**.
- Implemented secure authentication and payments using **6-digit mobile OTP verification, Gmail SMTP, Razorpay Checkout with signature verification**, and role-based access control.
- Engineered advanced discovery features using **Web Speech API voice search** and the **Haversine formula** for geolocation-based delivery distance and fee calculation.
- Developed restaurant reviews, dynamic rating aggregation, coupon logic, cart management, and itemized order billing with a responsive **dark-mode UI**.
- Deployed the application with the React frontend on **Vercel**, Node.js/Express backend on **Render**, MongoDB Atlas, and Cloudinary for media storage.

2. 3D Interactive Developer Portfolio

[Live Demo](#) | [GitHub](#)

React.js, Three.js, WebGL, GLSL Shaders, GSAP, Framer Motion, Tailwind CSS, Vite

- Built an interactive 3D developer portfolio using **Three.js, WebGL, and custom GLSL Vertex/Fragment shaders** to render real-time animated plasma-wave graphics driven by mouse interaction and time-based uniforms.
- Engineered a cinematic horizontal project deck using **GSAP ScrollTrigger and Framer Motion** with spring-based animations, 3D mouse-tilt interactions, and dynamic project expansion.
- Integrated an interactive **CLI terminal with Java and DSA test suites** alongside a detailed FoodRush case-study interface to demonstrate technical problem-solving and full-stack development capabilities.
- Optimized the **Vite production build** with responsive layouts, optimized assets, and automated **Vercel deployment** for a fast and responsive user experience.

Internship

Web Development Intern – Aeonaxy Technologies Pvt. Ltd. (Remote)

2026

React.js, JavaScript, HTML, CSS

- Contributed to responsive web interface development using **React.js, JavaScript, HTML, and CSS**.
- Worked on reusable UI components, frontend functionality, API integration, debugging, and responsive design improvements.

Full Stack Development Intern – Aurika Infotech (Remote)

Jun 2026 – Present

React.js, Node.js, Express.js, MongoDB

- Developing MERN stack web applications using **React.js, Node.js, Express.js, and MongoDB**.
- Building RESTful APIs, implementing authentication, integrating databases, and working on frontend-backend integration.

Education

B.Tech – Computer Science and Engineering	<i>Global Institute of Technology, Jaipur</i>	2024 – 2028
Senior Secondary (Class XII)	<i>Bihar Board</i>	2023
Secondary (Class X)	<i>Bihar Board</i>	2021

Certifications

- MERN Stack / Full Stack Web Development**
- Java Programming and Data Structures & Algorithms**
- Git and GitHub – Version Control and Collaborative Development**

Extracurricular Activities

- Regularly practice **Data Structures and Algorithms using Java** and solve programming problems on coding platforms.
- Build and deploy full-stack web applications to strengthen practical **software development and problem-solving skills**.
- Explore modern web technologies, APIs, developer tools, and software development practices through hands-on projects.
